

# custom design your home, your way

Here at Move Homes we have over 60 home designs to choose from. Many of our clients choose their favourite and tweak it to suit their needs. But sometimes, we create something completely brand new. For the self-claimed connoisseur in the kitchen, to a handy-man in the garage, you can add almost anything to suit your needs!

Have an odd-shaped block? Easy! No block is off-limits for us. Two of our display homes are on odd-shaped blocks, and we used it to our advantage to create the awesome homes they are!

Unsure on where to build? Well, we can create house and land packages from Two Rocks in the North, Kalamunda in the East and down to Dawesville in the South. If you have an area in mind let us know and we can put something together for you!
